Since 1996 Music Source has used Top Hits USA as their primary source of new music. Want to know if we have a song that has come out in the past 19 years? Go to: http://www.tophitsusa.com/music/music_f.html and then search by artist or title. Keep in mind that this is just a portion of our music library that comes with us to every single event we do. Music Source has a huge music library since we've been in business since 1982, when it was just albums and cassettes. So basically we have music from the 1940's to this weeks Top 40.

Music Source is your Springfield, IL Wedding DJ!
